

Remarks

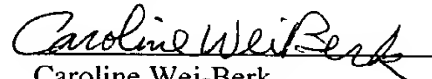

In the accompanying response to a Restriction requirement dated February 4, 2003, Applicants have elected Group II, Claims 5-11 drawn to an ultrasonic nebulizer, with traverse.

Accordingly, Applicants have cancelled Claims 1-4, without prejudice. Further, Applicants have submitted new Claims 12-13. Applicants expressly reserve the right to file continuation and/or divisional applications directed to the subject matter of the cancelled claims.

Additionally, Applicants have deleted the old title and inserted a new title. Applicants have also amended the paragraph identified above by replacing the word "vaporized" with the word "nebulized" to better described the present invention.
